

Product Safety Recall

Riveted Blade in the following series of Cuisinart® Food Processors sold in Australia and New-Zealand :

DLC-2011BCNA • DLC-2011NA • DLC-2014BCNA • DLC-2014NA • DFP-14BCNA • MP-14NA

The riveted blade may crack and a piece of the blade could detach, which may result in a **laceration hazard**.

TO DETERMINE IF YOUR FOOD PROCESSOR BLADE IS PART OF THE RECALL:

Recalled	Not Recalled
<p>1. Check the blade to see if there are rivets ...</p>  <p>2. If your blade has rivets, check the Model of your Food Processor, as shown on the bottom of the Food Processor (see below). If the model number matches with any of the above, STOP using the riveted blade immediately. Call the Customer Service number to order a free replacement blade.</p>  <p>Bottom of Food Processor</p>	<p>1. All other models sold in Australia and New Zealand excluding of the above</p> <p>OR</p> <p>There are <u>NO RIVETS</u> on the blade ...</p>  <p>2. Your Food Processor is NOT involved in this recall. You may continue to use your Food Processor.</p>
