## A TIP ON LEFTOVERS:

### Arancini

Leftover risotto should not go to waste. It is perfect for the Italian appetizer, arancini (which translated means “little orange”).

Simple to make, try them next time you prepare risotto.

Take your leftover risotto, plain or from any recipe, and form into 5cm diameter balls (or smaller if you are making a more delicate hors d’oeuvre). They are great stuffed with a 1.5cm piece of fresh mozzarella. If you’re using plain risotto, stir in a little marinara sauce with the rice before forming.

Prepare a classic breading: 1 bowl of flour, 1 bowl of beaten eggs, and 1 bowl of breadcrumbs (seasoned or plain). Lightly bread and either bake in a 190°C oven or pan-fry in hot vegetable or olive oil in a large skillet set over medium heat. Bake/cook until evenly browned.

These are best served immediately.

## SPRING PEA RISOTTO

Bright and fresh tasting, this risotto stands up nicely on its own, but it can easily be adapted by adding chopped prosciutto or ham.

**Functions: Sauté & Risotto**

**Makes about 6 cups (4 entrée servings; 12 first-course servings)**

- 1 tablespoon butter**
- 1 tablespoon olive oil**
- 1 garlic clove, finely chopped**
- 1¼ teaspoons flaked salt**
- ¼ teaspoon freshly ground black pepper**
- 2 cooker cups Arborio rice**
- ½ cup dry white wine**
- 3½ cups chicken stock, low sodium, room temperature**
- 2 sprigs fresh thyme**
- 2 cups frozen green peas, not thawed**
- ¼ cup grated Pecorino Romano**
- 2 tablespoons chopped fresh parsley**
- 1 teaspoon finely grated lemon rind**
- 1 teaspoon fresh lemon juice**
- 1 teaspoon finely grated lemon rind, for serving**

1. Put the butter and oil in the cooking pot of the Cuisinart® Super Grains & Rice Multicooker. Select the Sauté function and press Start/Stop. Once butter is melted and

hot, about 2 minutes, add the onion and garlic and a pinch each of the salt and pepper. Sauté until softened, about 2 minutes. Add the rice and sauté while stirring occasionally, until edges are just translucent, about 2 minutes. Pour in the wine and cook until almost completely evaporated then add the stock and thyme. Stir then close the lid of the cooker. Press Start/Stop then select the Risotto function. Press Start/Stop.

- When there are 15 minutes remaining, a tone will sound. At this point, open the lid, stir mixture and determine if the risotto is done to your liking. If the consistency is good, add the peas then close the lid and allow to cook for an additional 5 minutes to warm through. Open the lid again then stir in the remaining ingredients, except for the pea shoots and/or microgreens.
- At the 15-minute mark, if the risotto is too stiff or dry, stir in additional liquid (best if it is room temperature) and add the peas as well. Allow to cook for 5 minutes. After the 5 minutes have elapsed, add the remaining ingredients, as instructed in Step 2.
- This risotto is best when served immediately. Divide the risotto into serving bowls and top with a snow pea sprouts.
